Dear Jim:

I thought that you might be interested in receiving a copy of "Design for Living in CIA," since this was your idea, and you were the driving force in getting the proposal off the ground.

There has not yet been widespread distribution within the Agency, but the first testing of the water indicates that there is a very favorable reaction to this publication. It certainly reflects well on the Fine Arts Commission, and your foresight in suggesting such a pamphlet, in spite of skepticism in some quarters.

Sincerely,

15/ Harold
